

Mehrab FAJAR

Data Science & AI | Industrial Engineering | Systems & Operations Optimization

📍 Nantes, France/Trento, Italy | 📞 +33 745 479 728 | mehrabfajar@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Industrial engineer and AI/Data Science specialist with hands-on experience across AI, industrial operations, and software systems. Focused on building smart, data-driven solutions and managing technical projects that improve efficiency and decision-making. Interested in developing and applying modern technologies to solve real-world operational challenges and deliver measurable meaningful impact. Open to opportunities where innovation, operations, and technology intersect.

TECHNICAL SKILLS

- **AI and Programming:** Python, Computer Vision, Machine Learning, Data Analytics, Excel VBA, SQL, OOP, Java, C, Google Colab
- **Web and App Development:** HTML, CSS, Javascript, React, Flask, RestAPIs, FastAPIs, PostgreSQL, Docker, Git/GitHub, WordPress
- **Management & Operations:** Lean Manufacturing, Process Mapping, Process Optimization & Simulation, Agile Project & Workflow Management
- **Tools and Productivity:** FlexSim, MS Office Suite (Excel, Word, PowerPoint, Teams, Project), Trello, Jira, Asana, ClickUp, Miro
- **Soft Skills:** Continuous Improvement, Team Coordination & Adaptability, Research & Analytical Thinking, Problem Solving, Effective Communication

PROFESSIONAL EXPERIENCE

Computer Vision/Industrial AI Engineer | BLM Group

Mar 2026 - Aug 2026 | Levico Terme, Italy

- Developing AI-powered video monitoring solution for industrial manufacturing applications using computer vision techniques.
- Designing real-time human presence and anomaly detection models to support safer and more efficient manufacturing operations.
- Collecting and analyzing operational data and model outputs to evaluate system performance and identify improvement opportunities.
- Supporting process optimization and data-driven decision-making through performance analysis and insights generation.

Technical Team Lead | GoDesign Technologies

Apr 2023 - Jul 2024 | Islamabad, Pakistan

- Developed and directed end-to-end web development projects, planning workflows and deploying solutions, by ensuring first updates within 48h, reducing completion time by 20%, and increasing capacity for new projects.
- Optimized development processes by tracking progress, addressing delays, improving efficiency and productivity.
- Led and mentored a cross-functional team of 7, managing communication with 90+ clients, overseeing task allocation, and using downtime to develop team skills and enhance collaboration.

WordPress Developer (Freelance) | Fiverr and FK Digi Studio

Nov 2020 - Oct 2024 | Remote

- Delivered 400+ high-performing business and e-commerce websites for international clients, ensuring security and functionality, achieving a consistent 5-star rating and 98% client satisfaction.
- Managed multiple projects from planning to delivery, optimizing workflows and consistently meeting deadlines.
- Monitored project performance and controlled costs, increasing client retention and repeat business.

Project Manager | GoDesign Technologies

Nov 2021 - Feb 2022 | Islamabad, Pakistan

- Managed 20+ IT projects using Agile and Waterfall methodologies, ensuring 98% timely delivery and quality standards.
- Facilitated communication between technical teams and clients, aligning expectations and objectives.
- Monitored KPIs and tracked progress using project management tools such as Trello and Jira, improving workflow efficiency by 30%, while contributing to continuous process improvement.

EDUCATION

Double Degree - M.Sc. Data Science & Artificial Intelligence for Competitive Manufacturing | EIT Manufacturing Master School

Sep 2024 - Sep 2026 | France - Italy

- Centrale Nantes: M.Sc. Industrial Engineering - Smart and Connected Enterprise.
- University of Trento: M.Sc. Computer Science - ICT Innovation.
- **Focus areas:** Industrial AI and Data Science, Process Optimization and Simulation, Innovation and Entrepreneurship, Industrial Systems Digitalization.
- Recipient of EIT Manufacturing Scholarship for academic excellence and innovation potential in manufacturing.

Bachelor of Science in Information Technology | University of Education Lahore

Aug 2018 - Oct 2022 | Multan, Pakistan

- Foundations in AI, Data Management, Enterprise Systems, Software architecture & development, Quality Assurance, and Technology Management.
- Receipt of Higher Education Commission (HEC) Scholarship.

SELECTED PROJECTS

- **SyncOra (HackaPrompt AI):** A full-stack smart event scheduling web application that aggregates user availability to automatically determine optimal meeting times and reach quorum efficiently.
- **UrbanPulse:** A Service-Oriented Architecture (SOA) project focused on intelligent event discovery and logistics planning through a conversational Telegram bot interface, integrating multiple real-world APIs for personalized recommendations and transport optimization.
- **Predictive Production Planning (Industrial AI Challenge):** Analyzed and modelled the slitting process at Fedrigoni's Arco plant to develop a predictive production planning system, enabling a shift from reactive to predictive decision-making.
- **Parallel Romberg Integration:** An HPC project implementing and benchmarking parallel Romberg integration using MPI and OpenMP to evaluate scalability on multi-core systems.
- **Machine Learning Driven Flower Identification App:** A mobile computer vision app that classifies flower species in real time using a deep learning model trained in Google Colab with 2 datasets. [TensorFlow and Android Studio; KPI: up to 97% classification accuracy with real-time offline inference]

CERTIFICATIONS - 6 Sigma Yellow Belt Professional | Machine Learning Foundations | Crash Course on Python | MATLAB and Object-Oriented Programming Onramp | Innovation and Entrepreneurship | Career Essentials in Project Management | Create - Protect - Innovate: Bringing Ideas to Market (European Patent Office)

LANGUAGES - English C1, French A2, Italian A1

INTERESTS - Industrial AI, Continuous Learning, Volunteering, Photography, Travelling and Nature Exploration, Language Learning
